FRUITennVEG

Compostable Fruit & Veg Netting

ennio International's eco-friendly alternative to the conventional plastic netting bag.

Replace your plastic netting bags with a compostable, eco-friendly alternative.

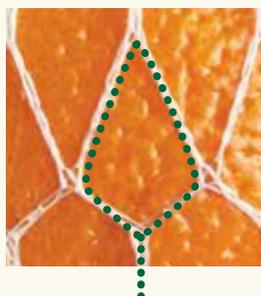

Meeting your customers' and consumers' expectations

- 1 million tonnes of Australia's annual plastic consumption is single-use plastic.
- 84% of all plastic used is sent to landfill.
- Meeting your customers' and consumers' expectations by providing a compostable alternative to single and multiple use plastics.

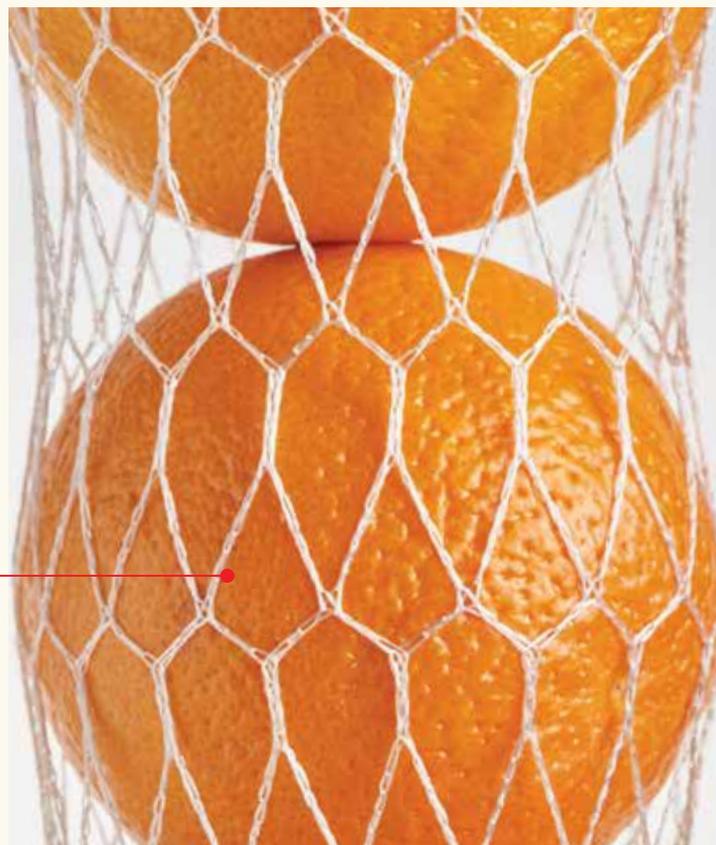

ennio FRUITennVEG bags can be safely deposited in household green waste bins used for home or industrial composting.

Instantly recognisable, unique design

- The unique leaf pattern of the ennio FRUITennVEG bag makes it instantly recognisable.
- Supplying produce in this design demonstrates your commitment to reducing plastic waste.
- Enables the growers to proudly display their green credentials.

Registered Design Pending

ennio International, is developing an innovative, fully compostable FRUITennVEG netting bag manufactured right here in South Australia to help reduce plastic waste in landfill.

Get ahead of the game

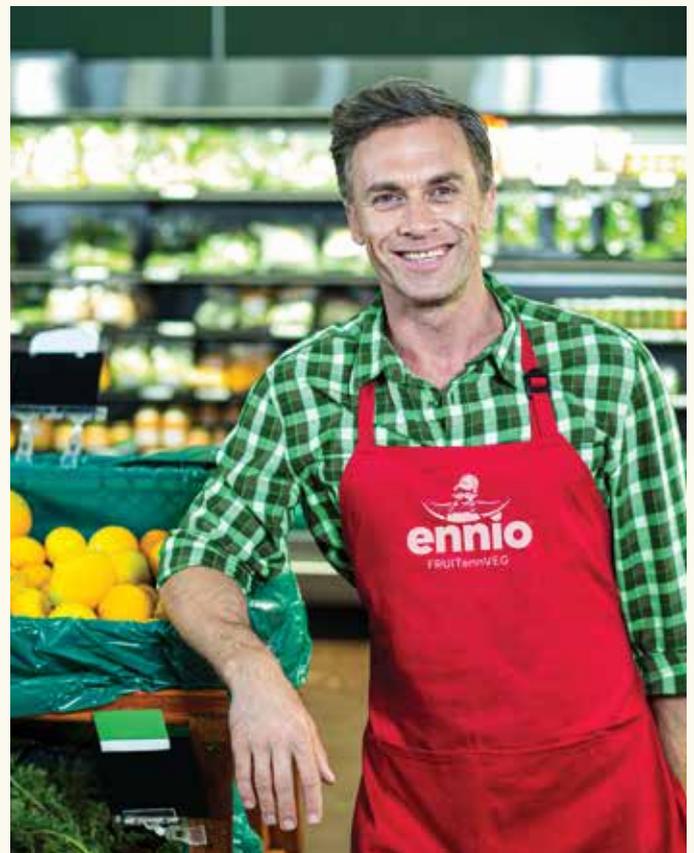

- For supermarkets, fruit and veg shops and other food retailers, there will be significant legislative changes impacting the use of plastic in packaging.
- By July 2022, non-compostable plastic packaging products containing additive fragmentable technology that do not meet Australian Standards AS4736-2006 and AS5810-2010 must be phased out.
- By 2025 it will be a requirement for 70% of plastic packaging to be recycled or composted.

Using ennio FRUITennVEG bags means you will be ahead of the game when it comes to new legislation.

Meeting international standards

ennio FRUITennVEG netting uses materials that meet the requirements of European Standard EN 13432 relating to home and industrial compostability of packaging.

ennio FRUITennVEG has achieved AS4736-2006 and AS5810-2010 certification to comply with composting for industrial and home compostability in Australia.
